

Indicators in Action - September 23, 2006
Prince George SFMP – Public Advisory Group
Field Tour Meeting

Q11. How did the tour affect your understanding of forestry activities?

- Good update
- Made me aware of modern techniques, equipment
- Saw current practice up close
- Not much – apart from active logging at work
- Good overview

Q12. How did the tour impact your understanding of the SFM Plan's indicators?

- Morning a lot better than afternoon
- Good reminder
- Interesting to see them in practice
- Not applicable
- Not at all
- More time with Gilbert & Dan

Q13. What should be added to the tour next year?

- Walk through of an audit for an indicator i.e. similar to effectiveness or implementation monitoring
- Use bus video equipment for PowerPoint talk of tour if available (on highway)
- ICH
- Some stops were indicators failed . I got the feeling we were shown the perfect bridge, the ideal removal, a clean logging show, & a successful replant. It's clear the opposite also exists. Some admission of this would be appreciated.

Q14. Please provide any comments or suggestions to improve the subsequent field tours:

- Guest speakers were excellent
- Bus made very comfortable
- Less pine focus
- Thanks for organizing the tour
